RFP #2023-AMH-CP02**

Questions and answers for emails collected by January 12th, 2024.

1. How many items are received by the internal and external book drops per day?

We have an estimated cumulative 2700 items returned by internal and external book drops per day.

2. Do you plan on tagging all STDL items with RFID tags in the near future? This would open up options for different AMH configurations.

We are currently undergoing the project to RFID tag our collections.
